Dear Ms. Monteith:

Pursuant to the 2006 *Wireline Broadband Classification Order*¹ and the *Open Internet Order*², United Utilities, Inc. along with affiliate subsidiary United-KUC, Inc., (“UUI”), Study area code 613023, is hereby providing the FCC with the attached notice of the Company’s intention to cease offering its DSL and Consumer Broadband-Only Loop (“CBOL”) broadband Internet transmission services as separate components of its broadband Internet access service effective July 2, 2019. As such, broadband internet transmission will only be furnished as part of a complete broadband Internet access service that the Company offers to end user customers within its Alaska serving area. The Company makes this election on more than sixty (60) days’ notice.

Re: Notice of Detariffing of Broadband Internet Access Transmission and Consumer Broadband-Only Loop Service

This is to notify you of a change in the way in which United Utilities, Inc. and United-KUC, Inc. provide broadband Internet access transmission and CBOL service, which is used as an input for the broadband Internet access services that you offer to residential and business end-user customers.

Presently, United Utilities, Inc. and United-KUC, Inc. provide broadband Internet access transmission service under tariff through the Moss Adams LLP Tariff F.C.C. No. 1 ("Moss Adams"). Effective July 2, 2019, United Utilities, Inc. and United-KUC, Inc. will no longer offer its broadband Internet access transmission service under the Moss Adams tariff, and will no longer offer wholesale broadband Internet access transmission as a separate standalone component of broadband Internet access service. On and after July 2, 2019, broadband Internet transmission service will only be available to end user customers in conjunction with the Company's retail broadband Internet access service offering.

Sincerely,
